- Community engagement
- Social media management
- Customer support
- Content writing

PROFILE SUMMARY

I'm a result driven community manager with experience in the blockchain and web3 industry. I've well spent a few dedicated years in building and managing communities all through several chains and blockchain projects. I've got a good foundation in cryptography and blockchain technology, and as such, I'm eager to expand my knowledge and connect with passionate individuals as well in the space.

WORK EXPERIENCE

RIZE (formerly Nice Society)	2021 - Present
Blurry Kits Lounge	2022 - 2023
UNMD.IO (unnamed)	2022 - Present
Breadheads	2022-2023

Roles played and activities executed

1. Hosted Twitter spaces and Discord AMAs for several projects of a great number of listeners around the globe.
2. Quality and on time responses to community enquiries and problems, and provided an A rated customer support service.
3. Interacted with several DEFI protocols and executed them in communities, which created a great and positive engagement performance from community members.
4. Worked alongside great team members to build and manage 10,000+ members across various social media platforms.
5. Strategically structured and executed campaigns and events resulting in user activities and interaction.
6. Analysed community performance and statistics of community members' operations using DEFI protocols like crew3 to provide spontaneous data to the team for product improvements.
7. Provided and edited write ups to be well placed and structured for information and announcement posts across all community socials.
